

PLATE CLEANER

Efficient cleaner and desensitizer to clean and activate printing plates

GENERAL PURPOSE

Plate Cleaner is an efficient cleaner and desensitizer for use on all types of printing plates exposed in a process. All ink, gum glaze, paper coating and oxidation residues are removed leaving non-image areas clean and desensitized. Plate imperfections such as scratches can be corrected as Plate Cleaner does not contain abrasives or scouring components.

WORKING INSTRUCTION

For best results shake well before use and apply while the press is stopped

Apply with a water dampened sponge or cloth
Wipe off with a clean water dampened rag
Product can be used before short term storage of plates for re-use

On webs, apply directly to the plate with a trigger sprayer while the press is running

STORAGE

- Store at room temperature in dry, well-ventilated area
- Keep away from heat & direct sunlight
- Keep the container closed
- Shelf life: One year from date of manufacture

SAFETY

Read MSDS before using this product

MAIN CHARACTERISTICS

- Single step cleaning, finishing and preserving
- Efficient and strong action that provides quick and clean restarts
- Cleans and desensitizes the non-image areas of plates
- Makes image areas more ink receptive
- Extends plate life

PRPERTIES

	CHEMICALS	
APPLICATION	Appearance	White Emulsion
	Density @25°C	0.90 – 1.00 g/cm ³
	Flash Point	> 60°C
	pH Concentrate	1.4 – 1.6
APPLICATION	Cleaning Power	Strong
	Water Solubility	Partially soluble
	Ink Solvency	Strong
	Buffer system	Yes

FEATURES	ADVANTAGES	BENEFITS
No abrasives	Mild action	Won't damage plates
Improves hydrophilic property on non-image areas	Strong desensitization	Improved print quality
Quick single step action	Saves time and effort	Increases productivity
Creamy texture	Easy to apply	Doesn't run off plate
